

SHELLEY  PAULSON

“I still remember the first photo Shelley sent to me, and how I caught my breath at the beauty she captured, but even more, how she was able to capture the relationship between my daughter and her horse. These photos are lifetime mementos that we will treasure always.” *Marie Henn*

HEARTFELT EQUESTRIAN PORTRAITS

so you will always remember

The bond you share with your horse is special, and it's a feeling you will always want to remember. The touch of their soft nose, the way they make you laugh, how it feels to ride together through golden fields at sunset...

As a fellow horse lover, I understand what it's like to love a horse so deeply and to want to freeze this moment forever. We never know how much time we have left to enjoy our beloved animals. Investing in beautiful, quality photography is a wonderful way to preserve our memories of them for years to come.

SHELLEY PAULSON

photographer and horse lover

I can't remember a time when I didn't love horses. I was that horse-crazy girl who spent summers on horseback, falling in love over and over with these beautiful creatures. One by one I said goodbye to the horses of my youth and now have only photographs to remind me of my beloved childhood companions.

Now I have my own little farm and get to be with my sweet horses every day. I can't help but take photos of them as I watch warm evening light stream into the barn and kiss their fuzzy ears, or see perfectly formed snowflakes land on their velvety winter coats. I take photos so I can always remember the beauty and joy they bring into my life.

*So you see, my story is probably a lot like your story
...and it's one I don't want either of us to forget.*

“Words are inadequate to thank you for the beautiful job you have done on Keara and Harley’s pictures. The album is so beautiful, and will be a lovely reminder of this time in Keara’s life. We are so impressed too with the beautiful way you present everything - no detail goes unheeded. Thank you again, with all our hearts...” *Aine M*

“The pictures get more perfect and beautiful every time I see them. My mom and I looked through them together and we were both just bawling over how priceless, timeless and beautiful you did. Your sincerity, warmth, genuine caring, and everything you’ve done helped me with healing the heartache of losing Jetta. I’ll never be able to repay you or thank you enough.” *Ashley C.*

REMEMBER SESSION

make this moment count

We never know the true value of a moment until it becomes a memory. As your horse ages or their health declines, the urgency to preserve the memory of your relationship grows. As the owner of an aging horse myself, I feel so strongly in the importance of creating these types of images for people that I've created this special collection.

The Remember Collection is for people whose horses are over age 24 or terminally ill.

THE EXPERIENCE

special from the start

When you entrust me with the privilege of preserving your memories, it's as though you are handing me a treasure that is incredibly special. I promise to care for that treasure by putting heart and soul into creating images for you that have beauty and meaning.

Prepare

It's not every day you and your horse are in front of a camera, so I'll help guide you to make the experience enjoyable and stress-free. I'll offer tips and ideas on how to prepare both yourself and your horse, so you can feel calm and confident.

Have Fun

The session is a time to simply enjoy an evening with your horse. Don't worry if they aren't perfectly behaved, I have loads of patience working with even the most fidgety horse. You can just relax and know that I am getting great photos of the two of you!

Enjoy!

You come to my studio where we go through the photos together comparing images and discussing retouching. You get the opportunity to touch and feel products in person, so you can easily decide how to you want to enjoy your photos.

“The images from our photo session not only will always capture memories but will be artwork for a lifetime in our home. As our 5 year old daughter transitioned from her miniature horse to big horses you captured her heart and spirit with such beauty behind the lens.”
